

Supplementary Figure 2 Boxplot of the diversity indices. The lower and upper box boundaries represent the 25th and 75th percentiles, respectively, the central line stands for the inside box median. CM: conventional management, TM: transition management, OM: organic management, NM: natural management. \_1: Year 1, \_2: Year 2. PD is the Faith's phylogenetic diversity and Richness is the observed ASVs numbers. Red dots representing outliers.
